

## Environmental Policy

Ref.	BTPOLS - 03		
Issue.	01		
Date.	01/11/2018		
Page.	1	of	1

Bourne Track Ltd is fully committed to effectively managing and improving our environmental performance and minimising the impacts of our business on the environment. We will do this through proactively looking at our impacts throughout the services we offer to clients.

We are committed to continual improvement and compliance with our Environmental Management System which we operate in accordance with BS EN ISO 14001:2015.

To achieve this, the Company will:

- Meet all necessary legal and regulatory requirements
- Take all reasonable steps to ensure that employees are aware of their responsibilities and understand how they should comply in accordance with Environmental legislation, Railway Group Standards and Network Rail Standards
- Ensure employees are appropriately trained to enable them to carry out their work in an environmentally responsible manner
- Engage and work with relevant external bodies such as the Environment Agency and Railway regulators to ensure Environmental compliance
- Maintain and continually improve its environmental management system
- Develop meaningful environmental performance indicators to measure resource use and waste
- Provide a well-structured and organised approach to Environmental management
- Clearly determine the requirements of environmental management and assign responsibility accordingly
- Constantly monitor environmental management aspects and impacts in a systematic way and record all environmental issues
- Manage our premises in an environmentally sensitive manner
- Operate a thoughtful buying policy, selecting whenever practical, alternative products that cause less damage to the environment
- Minimise and where possible eliminate the use of environmentally sensitive materials and polluting substances
- Minimise waste and reduce consumption of materials and promote reuse and recycling
- Use materials from renewable sources.
- Ensure compliance with regulations for noise, waste disposal and energy use
- Continuously improve environmental awareness in the light of new research and developments

This statement will be reviewed annually (or as and when required) by the MD.

It is briefed and acknowledged by all employees on induction and following any policy changes.

Mr T Clifford  
Managing Director
